

For the ham radio traffic nets that I run each week, I offer several ways for you to checkin to most of them, while others only have one checkin way available. This list was updated June 26, 2025. All net times noted below are US Central Time. Note that while other modes may be available, the main modes that I'll be using/monitoring are as follows:

A – APRS

C – CQ200 (<https://cqplace.com> for more info)

D – D-Star

E – Echolink (<https://www.echolink.org> for more info)

F – Facebook

H – Ham.Live (<https://www.ham.live/views/dashboard> for more info)

N – Netlogger/Netlogger Companion (<https://www.netlogger.org> for more info)

P – Packet Via Telnet (<http://www.wx4qz.net/elk.htm> – look for the file on The PCL Net)

Q – QuadNet Array (<https://openquad.net> for connection options)

R – D-Rats Checkin

S – Sunflower Net (<http://www.sunflower.net.us> for connection options)
