

How To Contact Daryl Stout, WX4QZ – last updated on Nov. 12, 2023

NOTE: I will NOT have computer, email, or internet access as of Nov. 13, 2023, due to restrictions from hip replacement surgery. So, NONE of these modes will be available until further notice, which may be several weeks.

1) Via my ham radio/weather oriented computer bulletin board system, The Thunderbolt BBS via telnet client or web browser to either of these addresses:

<http://www.wx4qz.net/bbsftlnt.htm> OR <telnet://wx4qzbbs.ddnsfree.com>

Choose the FEEDBACK link at logon, and leave your email address if you want a reply. If the links don't work, please try again later.

2) Via Postal Mail to P.O. Box 55655, Little Rock, AR 72215 -- I check the P.O. Box once or twice a month; I don't drive anymore due to vision issues.

3) For licensed Amateur Radio Operators:

a) See the file “Nets Where WX4QZ Is Net Control” for more info.

b) If you're a subscriber on QRZ, login, and search for WX4QZ.

c) Winlink 2000 users can send email to wx4qz@winlink.org

d) Echolink, D-Rats, and CQ100, for sked requests.

e) I'm on X (formerly Twitter) and Skype, but these are used very sparingly.

f) I'm on the NS2B Packet BBS in Penfield, New York – see the file on “The PCL Net” for more information.

g) "Eyeball QSO's" are done at local exam sessions. I have no RF gear at the QTH (I have congestive heart failure, and operate “internet only”). So, I'm only available/on the air, via the modes noted above.

h) Note: Due to failure of the Netgear Router Extender, and my inability to buy a new one at this time, I'm unavailable via HamShack Hotline until further notice.
